

The MacDiarmid Institute
for Advanced Materials and Nanotechnology

Appointment of new International Partner Investigators (IPIs)

The MacDiarmid Institute for Advanced Materials and Nanotechnology

The MacDiarmid Institute invites applications for new International Partner Investigators (IPIs).

Selection criteria:

- All investigators have to support and implement the vision and mission of the MacDiarmid Institute;
- IPIs have to contribute to one or more MacDiarmid projects as outlined in the 2021-2024 Science Plan (summary can be provided on request);
- IPIs have to collaborate with at least two MacDiarmid Institute Principal Investigators or Associate Investigators (AIs);
- IPIs have to contribute to at least one of the non-scientific activities at the Institute;
- IPIs have to lead independent research;
- IPIs have to have demonstrated research excellence (relative to opportunity).

Eligibility:

Applicant must be based at a research institution outside of New Zealand.

Process:

Please submit a cover letter addressing the selection criteria, CV, publications list, and two recommendation letters (by MacDiarmid Investigator) to the Centre Manager, Catherine Gibbs (catherine.gibbs@vuw.ac.nz). Applications will be considered by the MacDiarmid Institute's Science Executive. Applications must be received at least two weeks prior to a Science Executive meeting (held quarterly) to be considered at that meeting. All applicants will be notified within one week following the Science Executive Meeting the outcome of their application.
